THE COPPER CORNER

AUGUST, SEPTEMBER, OCTOBER 2018 "Something for Everyone"  
18<sup>th</sup> Century "CONDER" TOKENS-----17<sup>TH</sup> Century tokens—19<sup>th</sup> Century tokens  
Medals, medalets, unusual historical items----

LIST # 93

**Welcome to List** ---Coming up for fall----

**First up---Coin-Ex.** This year a special anniversary event, it will be held Friday September 28 and Saturday September 29, on the show's 40<sup>th</sup> anniversary. It will be a larger show than usual, there is more space for tables in County Hall, described as an Edwardian Baroque style building situated on the south side of the Thames next to Westminster bridge. The building overlooks the houses of Parliament, and the London EYE. Oddly, the promoters failed to put the hours of operation on the flyer I have, but first up, location----County Hall (ETCvenues) Belvedere Road, London, SE1 7PB, nearest tube stop Westminster or Waterloo. Time not mentioned, but if it follows usual protocol, it is open for early birds (think it is 30 pounds to get in), and at Noon for us regular folks, always a decent show this one promises to be a bit special.

Auctions---

**Well, have changed both of these listings several times,** I have no idea why, but the Baldwin's at St. James October sale has been cancelled. The DNW sale, which was cancelled, is now back on again, this time on 3 October-- go to [DNW.co.uk](http://DNW.co.uk) and look for current auctions. The auction venue was not listed, but is probably at 16 Bolton St, Picadilly, London. Viewing is done there as well. (Just had a look, only a few pages, but some good things)

Baldwin's at St. James will have a section in a November sale for tokens, featuring tokens that have appeared before in the basement sales, as well as many that have not appeared, and some great rarities, notably Anglesey pieces. Coming up, there will be some large groups taken from the basement vaults, at bargain prices. Contact them for dates and times of the sales.

Token Congress-----

One of my favorite venues is the three day Token Congress. Dates, October 5,6,7. Cost for the three days 195 pounds, and that includes 5 meals, including the banquet, the room for two nights, all the talks on Saturday and Sunday morning, the bourse, where you can buy tokens from a room full of dealers who sell them on Saturday night. But the best part of a Congress is a three day immersion in tokens, with folks with like mind, and the friends you will make have, for me, been worth more than any token I have ever purchased there. This year it is back at the Northampton Hilton. Due to health, I will not be at this year's Congress. My first miss in the last 17 years, am sorry to miss it but you do not have to, highly recommended!!

And, of course, **if you need a new D&H,** do not forget that they are available now, the price \$125 plus \$10 for shipping, See page TWELVE for ordering and shipping information. Available from yours truly in the USA, and from Alan Judd in the UK, [micobwright@aol.com](mailto:micobwright@aol.com) this at 88 pounds. Onward to the list-----

## PAGE TWO

As to this list, a couple of second chances, and some other material. You will find good things as usual----I shall be at the same old stand for a little while, so the lists will keep on coming. Tim Rollins will be taking over the 18<sup>th</sup> Century soon, but I will still be selling items that are in my collection, some of it very special indeed. Enjoy the list----

### 18<sup>th</sup> CENTURY TOKENS AS CATALOGUED BY DALTON AND HAMER

#### **BEDFORDSHIRE & DEVONSHIRE, SEE BELOW**

---

LEIGHTON BUZZARD 3c. 1794. Girl making Lace//A Lamb.Tad strike weakness on Lamb, minor mks, Brown, great original luster, net grade AU----sharp looking. \$110.

PUDDINGTON **Bedfordshire 5, or Devonshire 13.** 1797.

Bust W. Waller//Ship. This token designated by D&H as being from Bedfordshire, but our own Michael Dickinson found that Waller was from Puddington, Devonshire. Now Devonshire 13.

On this token Waller is noted as having no, or very little, hair detail which is normal!! The flan has a few small flaws in it that appear natural, the lettering around is nearly new, so the piece is probably far closer to UNC than to VF, I am calling it GVF. Handled, but the flan is remarkably clear. The reverse, with the ship, is weak in the very center, and most of these found are that way. These tokens were once thought to be rarer than we think today, but still it is **RR**. Might be 15 known now. Michael Dickinson says he has traced 14 examples, and most have little, or no, hair detail. Michael Dickinson's excellent article on this token is to be found in CTCC Journal #50. Sell \$995. NOW \$895!! Bargain!!

AND---a rarity, a hardbound book, by Louis Mullgardt, **The Architecture and Landscape Gardening of the 1915 San Francisco Exposition.** 202 pages, description and photo of each item covered. Shipped, \$12.

**World War II—During 1942-1945** American airmen and infantry, parachutists, and others were always in danger of being caught behind enemy lines. **They carried silk maps**, one sided, and if the map got wet it was not destroyed, it was simply dried out. First offering is the European theatre of war, comprising seven maps covering every country. Of the **seven maps** offered, there is one duplicate, that of Germany itself. These are a bit more common than the Pacific theater, and the **price for each map is \$50, All seven are \$325.**

**THE PACIFIC THEATRE**---These **maps**, of which there are **three**, were issued in 1943 and 1944, two color silk maps showing southeast China, Luzon Island, Japan, and other locations. A downed airman needed these, but as you might suspect there were not many maps saved. Much harder to find than the European maps. American airmen, emergency **maps, three, \$250.**

**American Colonial**, AE, 51mm, a copy of the original but of the era, there is even a bit of red in the devices. General “Mad Anthony” Wayne on the obverse, “Stoney Point” &c, the reverse showing the Battle of Stoney Point. In exergue, 1776. A very **strong copy of the 1776 original.** When I first saw it thought it must be an electrotype, but it has mint red in some devices. No question about it being original-- it is not. A later manufacture, the medal is part of the Comitas Americana series. EF or better, \$395. **1781---the Battle of Yorkstown**--- this a 1981 commemorative proof, 51mm, “solid bronze” on the edge, and struck to a prooflike brilliance. Very pretty, heavy piece, flashy and as new. \$18.

**A chance to own a really rare medal**----Bust of Hampden, obverse states 1594 to 1643. Reverse, a wreath, but no legend. This medal is bronzed, 54mm, copper. John Hampden’s complimentary medal was struck in 1863, and is listed in British Historical Medals as BHM 2788. The medal is about as made, no marks or stains, decent luster, and really lovely to look at. Hampden was a leading parliamentarian politician who challenged the authority of Charles 1. In 1637 he stood trial for his refusal to pay the ship money tax. **BHM lists only a single specimen of this medal**, that in the Ashmolean Museum. !! This is a second example, and was put away in Baldwin’s basement safe. One of Two known? Yours for \$395.

#### A LISTING OF A FEW CIRCUS TOKENS

**CIRCUS TOKENS**---These are listed by **Withers Token Book 3**, and the prices indicated have little connection with reality of what they sell for at auction. I bought these at auction, and was chased boldly up the chain to get them, they came from a collection by David Young, who bought these when he stumbled on to them, I see pieces from Noble (1998) to almost the present day, and the grades are from Good to AU. He bought what he found, and seldom found better. So, an offering not to be duplicated any time soon.
