THE COPPER CORNER

MAY, JUNE, JULY 2017 List #92 ----- “Something for Everyone”
18th Century “CONDER” TOKENS-----17TH Century tokens—19th Century tokens
Silver tokens, Unofficial Farthings, Medals, medalets, unusual historical items----

Hello to all,

This list is a bit late, get to my age doctors seem to want your attention. Sad but true. Had a procedure called an Ablation, and if you have an irregular heartbeat, talk to your cardiologist, as this procedure cures around 95% of all that have the type I had, and it only takes a day. You will be back to normal. Well, heart wise anyway. Worth mentioning, I found it easy to do and worth its weight in British tokens!!

The May-June list seems to be the one where I talk a bit about the plans for the fall.

Coin Ex will be a bit special this year, their 40th anniversary show, and it will be held at County Hall, located right at the edge of the Thames. The address of the hall is Belvedere Road, London SE1, 7PB. Look for the section of the building for ETC venues. The building is located by the Westminster Bridge, tube connections either Waterloo or Westminster. The dates for Coin Ex are Friday and Saturday, 28 and 29 September. The Token Congress will be Friday to Sunday, 5, 6, and 7 October, at Northampton Hilton on Watering Lane. If you go, and take a cab from the station, be sure to tell the driver it is on Watering Lane. There are three Hilton's in Northampton, others have visited all three trying to locate the one, so a word to the wise.

Auctions-----

The October 4 sale at Baldwin's at St. James will be all English, no tokens from Wales, Scotland, or Ireland. If you wish to gain access to the sales they will have, (and have been assured that many tokens out of the basement will be in them) please contact Lisa Norfolk, numismatist, at Baldwin's of St. James, for ordering catalogues. Lisa@bsjauctions.com The web site is located at www.bsjauctions.com for further info. I will try to fill in any auction info from DNW if I receive it before I have to print this.

Onward and upward, ---- Should finally have this list done by May 25, and a date to have it to you, sometime in early June.

The fun stuff is fun indeed, some quite interesting items there. I bid on three of the 50 brown jugs produced as an anniversary item by a potter in Dahlonga, Georgia (around 7 were for sale, from a large western Americana collection) --- just to tried to get one, but got two, and I do wish to keep one of them. The other can be sold, and will do so at cost. I was correct, they sold for well over the high estimate, so a bit pricey. But I HAD to have one!! \$425. Shipping extra. On the jug, Brown finish glaze, it says in large letters----“U.S. BRANCH MINT”//DAHLONEGA, GA. The jug is 11 inches high, with a single handle, and is as new. Truly great display item from this very rare branch mint. **See Fun Stuff, page 10 and 11.**

TENTERDEN	42.	1796.	The story of these pieces, on the plus side it is probably the best brewer's token in the series, and on the negative, the pieces almost all have weakness on the barrels on the obverse, sometimes on the horse as well. Finding nice ones easy, but a fully struck nice one, not so easy. Obverse: A horse and Dray, carrying casks of beer//Brewer's Arms. Usual strike weakness on the barrels, otherwise very nice, AU++ \$120. ECCLESTON	57	1794	Bust Eccleston/Ship. I listed this one a few lists ago, and withdrew it when I was told there are others like it. It turns out there are others similar, but only a couple, in the hands of a die variety collector. This piece has the #58 obverse, with the cross hatches over the date, and the reverse is a 57, with a period after the word commerce. If there are others, I have not seen them but it seems a "transition" piece struck when cleaning up the dies was only partly done. Thus, this is a 58 obverse, 57 reverse, and rare such. UNC, \$275. Rarity---at least RR.

Mint book, great price-----

The Trolley and Interurban Directory-----by Joseph Gross, and signed by the author. This is a most unusual book, it lists every trolley, whether drawn by motor or by horse, that was listed in any town or city in the USA, along with interurban (usually motor drawn) that is country or intercity. One heck of a huge listing. The listings are broken down by State, alphabetically, then city, or county. There is some historical background on a few pages, but this is really for the collector of tokens, I think, and the person who wishes to carry research farther. You would definitely know where to look. Trolleys and interurbans were at work all over the USA, many before the trains even connected them. Nearly every city in the USA of any size has old rail lines that can still be seen, or guessed at, where these used to run. Self published, and an addenda since it came without one section, (now inserted), a “where else would you find this info” book. Post Paid, \$75.

Large format, (Quarto), over 200 pages, I am amazed by the work that went into this.

USA---Western America—by LeRoy Hafen and Carl Rister. First printing 1941, second printing 1950. This is the 1950 edition. A comprehensive look at the coming of the peoples from the old worlds to the new, introducing the aboriginal inhabitants, who “found” them, and the settlement of the lands. How the lands and peoples were before the coming of the Europeans, or anyone else---Valuable info, \$15 includes post.

USA---Gold Rushes and Mining Camps of the early West---Vardis Fisher & Opal Holmes. A massive book, 466 pages, containing 250,000 words and 300 pictures. Fisher is a respected scholar, one that attempts here, to separate fact from fiction, and give us a true look at the west, the people, and the times. Here, he works to find the truth among a ton of mythical stories that have swamped the pages of most historical volumes. A superb book, as new, reducing my collection, under my cost at \$50.

USA===Comprehensive Catalog of U. S. Paper Money, Gene Hessler. Sixth edition, values, contact list, and more. A 500 page softbound edition,, Octavo (9 inches), history and photos of all notes. \$20.

USA--- Paper Money of the United States, 15th edition, Quarto, hardbound 336 pages. Included are large and small size notes, fractionals, encased postage, Colonial and Continental currency, and Confederate notes---, illustrated throughout---by Arthur and Ira Freidberg. This 1973. All information good today but the prices, it is a very useful book, every library should have one. And, most do!! \$45.

GERMANY===all to do with airships!! Hundreds of plates next to item's description-----

Medaillen Planketten Abzeichen der Deutschen Luftfahrt. Hans Kaiser---This amazing book, hardbound, 654 pages, 1998---is as you have worked out German in origin. It covers tokens, medals, plaques, any sort of collectable that contains airships---balloons, zeppelins, airplanes from 1803-1998, and is quite complete. A book that will have your token or medal in it somewhere. As new, wonderful \$65.

There is a note of sadness, as we have just lost two of our own. Nigel Trewin, a professor from Aberdeen, passed away last October from melanoma. A really nice fellow, who had interests in many areas, one of them Scottish 18th Century tokens. I was just informed of his passing, and no matter who it is I am always surprised and saddened. In Nigel's case, the terms “A scholar and a gentleman” certainly apply, and we shall miss him. More in the next CTCC Journal.

More recently we lost David Bailey, husband of Fran, two wonderful people---Dave was a dedicated collector, and as president of coin clubs for many years in New York and New Jersey, was known for his talks on Conder tokens. A month ago, all was well with him, but a virulent form of cancer struck, and took him from us in just three weeks. He had a zillion friends, and will be greatly missed.

We are all in shock, there was basically no warning for him or Fran or anyone. Be kind to those you are close to, things like this can happen!! More will be in the next CTCC journal.

A NOTE ON THE COPPER CORNER---- PAGE NINE

As you might note I am still here, and will be so until sale of the business is finalized. After it is will still be around, handling the material that is not 18th century, as well as some really neat British and American items that are not numismatic!! When the sale is completed, I will be selling my private collection of 18th C tokens on short listings , added into the specialized material. Will also have some Western Americana, so stay tuned. Never know what I come up with, ---even I quire often never know until I see it!!

I shall still be in the UK in the fall, or so the plans are, my latest medical “fix” has given me a bit more energy--enough to keep on keeping on. Enjoy the list, Bill

The LITTLE BROWN JUG----

Well, not so little. 11 inches tall, and around 36" around the middle, single handle, well-made pottery jug finished in a brown surface and glaze. So, why this jug? It was one of 50 that were made to honor the United States Mint in Dahlonega, Georgia. And in fact, in large letters across the front of the jug, in two lines, it says US BRANCH MINT//DAHLONEGA, GA. This mint was established when gold was discovered in the area, and it existed up through the Civil War era. A mint was needed, as shipping ore to one of the established mints would have been nearly impossible. Some years after the mint closed, a potter had a business selling his wares and historical items near where the mint had been located, and he made 50 of these jugs to commemorate its location. This jug was, believe it or not, #1 of the 50 made, and a recent auction that included a Western Americana collection, had a small number of the jugs, I think seven--- for sale. If one tries to find anything connected to this mint, they usually cannot come across much, if anything--- here is a really neat jug made for the job. Great display item.

The auction did what I expected it to do, jugs went well past the high estimate on every lot. In an attempt to get one I bid on three, thinking I probably had no chance at all, but I did get two of them. So, here is one of them, offered here at what I paid for it. Shipping will be extra. It is as new, my cost \$425, yours \$425.

GOLD RUSH SECOND OF EXCHANGE-----Wells Fargo issued October 20, 1855, during the California Gold Rush, from the Marysville, California office and to the order of Charles H. Hedges. It is signed by the agent, simply "Wells Fargo". This was Mr Hedges copy, probably the person who bought the exchange.

In 1855 there were no bank checks, nothing like that existed, so to pay someone you got a bill of exchange from a bank or express office, and sent the original to the person to be paid.. You kept the second of exchange, which did not have a number of days that the draft was to be considered payable. Hedges was listed as the agent, and the first copy was sent to New York, and the Wells Fargo office—where it was to be exchanged for the \$50 bargained for. This copy was not needed---the first copy made it to New York. A great Gold Rush item, from the gold fields in California, an exchange note in decent condition, under value at \$95.

UNUSUAL GOOD FOR TOKEN---cannot help myself, as I collect them. Bob Everett, my good friend who started me on this road, which include the Conder Token road, collected them and I inherited his collection in 1997. So, I keep looking and adding to his tokens. I found two of these, cannot be another like them. Years ago the Greenside Church in Edinburgh was torn down, and a workman found a small group of these tokens--on one side it simply says Greenside---on the other side "**One Half Peck of Oatmeal**". Singular unusual value on a token, fairly large token at 29mm, it is brass and other than light stain, EF. \$75.

SUFFOLK HAVERHILL Proof token, dated 1784, and by that deduction is that it was made in 1984, ????. Anyway, copper? Full gilt, a copy of the Haverhill piece, in mint condition. Proof "copy", yours at \$50.

MEDAL----VIEW OF THE CITY OF JERUSELEM---///Three buildings on the mount, reverse. Very detailed medal, relatively modern, Bronze,81mm. As new, yours for \$35.

Pair of wood turned round boxes, 10mm thick, 56mm in diameter. The boxes unscrew---in the lid, the Royal Arms. In the base, a pair of seal examples, one in Latin, translation "my most faithful friend" the other a view of a devil, with a legend, essentially "the Devil em pate L'Amour", these by **Benjamin Wyon**. The seal impressions in new condition, the boxes nearly so, and not something you might see every day. The Wyon family worked at the Royal Mint over generations. This pair of boxes, with seals, with a tag \$165.

Wells Fargo Express---2 pieces, maps on one side, Presented by John Valentine, President, Western Division. One of them with a very detailed map of Europe, the other with Britain and Germany. A lot of trouble to tell you they are not genuine, in fact there is NO genuine piece like these, they are fantasy, but they might con some folks. The medals are copper, 44mm, well made, and the pair is only \$35.

PANAMA PACIFIC INTERNATIONAL EXPO--- The French Pavillion, a very rare item and very interesting. San Francisco, 1915, made to honor the opening of the Panama Canal. Bronze medal, the obverse with a torch bearing Putto (A naked boy), revealing a globe. The reverse with the Palais de la France. This piece 51mm, perhaps lightly polished long ago, but very rare. This medal has been in my Western collection for some time now, will admit it is for serious collectors, only one of these I have ever seen. EF, \$395.

If you collect items from this fair, a fair bet is that you have not seen this piece before.

Bust of John Milton, Poet---A 42mm bronze medal, made in 1818. Illustrations of illustrious men---Milton was of course English, but the piece was made in France, EF, a commemorative. Now \$75.

100th Anniversary of the Falkland Islands---A 36mm “brushed Bronze” medal, as made, Obv King George V, the reverse Arms of the Falkland Islands and dates. A British possession. 1833-1933. This medal is about as new, and in the original fitted case. Might be a few about, but this is NOT common. UNC \$125.

The Colley Olley Society---A Silver medal, a 45mm piece from 1837 or a bit after. It is not hard to believe that this was a not too serious social club. The obverse with a “drunken Jester” and a clown---or a man wondering about the Jester, which is a superb vignette. The reverse with two hands meeting in the center, giving a toast. The piece could not have been made in large quantities. My cost at \$200.

The Death of George III---Copper, 48mm, Bust George III to Left//Reverse, “Pater, Patrie” &c, the standard issue, this one by Keuchler, Soho Mint, original Box. It is fitted, and by signs it has been there a long time. As new, box lid a bit wobbly but hardly any marks on it, clasp works. From my collection \$375.

The Death of George III---A Silver Squeeze of the last piece, obverse only, as made and in the original box, with the lid nearly detached. Soho Mint, same maker, interesting pair, this just \$65.

RUSSELL SQUARE, LONDON—and environs. The area around Russell Square, Bloomsbury, is all part of what used to be the Duke of Bedford’s lands. It includes the land, all the way up to and past Bedford Square, as well as London University, and the hotel I stay in during my time each year in London, the Prebident. In fact, Spink’s is on a piece of Bedford land. Here we have two medals, one bronze, one silver, struck in 1966 for the 800th anniversary of the original charter for the lands which came from Henry II to the original Duke of Bedford in 1166. The two medals have the arms of the Duke on one side, “Bedford Charter”

And the King on horseback, with crown and scepter, and the Duke’s arms. I am not sure, but this charter may have included the land on which the British Museum stands today---These two medals, as new, pair for \$115.

A SILVER STICKPIN---The pin intact, the view of the castle (which looks like an ordinary two story house to me), with the words Castle Hayes under it, well done, on a 1875 silver threepence, yours \$25.

Maria Theresa Thaler, a silver 28g restrike, a modern proof, from the original 1780 coin. \$25.

A Journalist Pass for Sidney Skilton, to get into the Olympic games venues, Budapest, 1966. Impressive, but I am not sure it is genuine, most likely is but no proof there. Take a chance, \$15.

ADMIRAL BYRD---ANTARCTIC EXPEDITION. 1933-1935. 64mm heavy medal, looks like silver but is not. Very unusual---legend, in part “Admiral Byrd Antarctic expedition for distinguished service to the Dairy industry”---and sure enough, there is a cow on the obverse of the medal. Byrd contracted with the American Guernsey Cattle Club to supply some cows that he could take with him on the expedition. Not at all altruistic, they were to help keep the men warm, supply milk, etc, which they did. No, they did not eat them. Obverse, rising sun, a ship, a cow’s head//Reverse, thanks by the dairy industry and the Guernsey Cattle Club. I know there is more to this--an odd Admiral Byrd piece, first I have seen. AEF, nice \$150.

EAST INDIA COMPANY 20 cash coins (& 1 10cash), part of the **shipwreck of the Admiral Gardener**. Matthew Boulton made them in quantity, and shipped to the EI company in Bengal in 1809, the ship only made it four miles from shore before being wrecked on shoals with loss of 7 men. The coins were retrieved in 1985. I only have 6 left but they are \$35 each with a card explaining the situation. Each 20 cash is dated 1808, and are as they come. Shipwreck coin, cleaned of sea debris, etc, first come first served.

GENERAL ROBERT E. LEE---tall column, with Lee standing on the top, was unveiled in New Orleans on Feb. 22, 1884. This depicted on the souvenir medal for those in attendance at the unveiling. The reverse with dates of birth and death of Lee, and that it is a souvenir of the unveiling. The piece is 44mm, made of latten, a cheap metal, has a few marks, couple by file it seems. Politically incorrect these days, but it is part of our history, and a piece I have never seen. One sold on the internet, no better than this, \$140. So, \$140 buys.

QUEEN VICTORIA---55mm bronze, Young head, //Old head, official mint issue for the Queen’s diamond jubilee in 1897. Ch. UNC, no box, a super example, \$55.

Karl Goetz---A cast medal, 58mm---bronze. K261. **The Occupation of the Main Province.** Communists took the Rhur in 1920. The Germans sent troops to reclaim it, but the French held it from WW1, and took it back. Obv. the occupation//rev, the “pitiful retreat”. MS 63, in monster NGC Slab. Nice example, \$395.
