AUGUST, SEPTEMBER, OCTOBER 2015 "Something for Everyone"
18th Century "CONDER" TOKENS-----17TH Century tokens—19th Century tokens
Evasions, Unofficial Farthings, Medals, medalets, unusual historical items----
LIST # 81

A big hello to all. Lots to talk about this time out. Last year was the year of everything breaking down--including my office chair, which dumped me onto the floor!! All back ship shape now. We put in solar power, with 33 panels on the roof, and replaced the broken furnace with a heat pump, just in time for a really hot spell. Seattle natives seldom have, or felt they needed, air conditioning, but the climate is changing, no question. We have had nearly no rain in the last month, lots of sun and heat, so am using the air conditioning already. Not like Seattle at all. Anyway, back to being a bit comfortable, and all the appliances work again.

The new D&H is well on the way to being done. It is off to the publisher, for photography and layout. It is my hope that it will be ready by October, sometime. The new addenda, with introduction, is vastly expanded, and the intro for the book contains a lot of small notes on things that the user of the book might consider of value. I am confident enough that it will at least be out this year, so if one wishes to be on the list to get notified when it is done, I shall be happy to do so. It will be as inexpensive as I can make it, but not cheaply made. It will be good quality, with a good binding. The price will have to be announced later, as production costs are not all in. But it is certainly getting there, and I am very pleased to see it nearing production. If you would like to be on that list for a heads up, let me know. My guess, at the moment, is sometime in October. Early orders will be taken now.

One other thing, it has been decided to put out a deluxe edition. It will be a upgrade binding variation, following many others who put out books and have a special collector edition. It will be limited to 20 copies, all signed and numbered, and if you wish one it might be good to order it now. I already have several orders for it.

Coming up for Fall, This fall will be a bit unusual. The usual end of September—beginning of October auction season will have but one auction, and that is the Baldwin Basement Sale part TWO. It will be held on 29 September, and though I have not seen the catalogue, I understand that the auction will have no group lots. Nearly like last year, it will have many lots, each with a single token. If it follows last year's sale, there will be a lot of rare pieces in it, as many came from the Cokayne collection. The lack of tickets with the pieces were noted last year, some had them, many did not-- but after sitting for 50 years plus in the basement it is hard to say what happened to the envelopes and tickets. The tokens will be as they come from the basement, no cleaning done, it really behooves you to either have eyes on them, or hire a good set if you want a particular item.

Bound to be a lot of interest in the sale. The usual DNW sale will not follow the Baldwin sale as it did last year. Instead, they are to have two auctions that contain tokens, one around 15 September, and another later in the year. Check their web site to find the dates, I have no firm ones to report.

THE FOLLOWING NOTICE IS OF IMPORTANCE TO ALL---Please read---

The post office has raised prices again, and to gain the same service we have had, with signed for mail for most packets, it can run as much as a 33% rise in the cost. Prior mailings have had signed for mail valued at over \$200, now it is over \$500, if the order is under that, they will just drop it in your mailbox. To me, that is not acceptable. A signed for attachment can be had for \$3 more. With that, a small packet will cost 33% more to mail. I have mailed a couple packets, one international, one USA, both were well over what it was the week before.

We can talk about it via E-mail when you order. As of now I am not reliably sure of what the cost will be. Some of the raise is pennies, but some are dollars, will have to let you know.

Other than that, ---all is good.

Enjoy the list,

Bill

DALTON & HAMER—"Provisional Token Coinage of the Eighteenth Century". **Out of Print. BUT----** **THE NEW EDITION OF D&H has finally made it to the publisher for photos and layout.** The publisher has intimated that the book could be ready sometime in October, or November at the outside. It will contain some pages with the type of information that formed fairly constant questions over the years, that I have tried to answer, in brief form. The new addenda, with introduction, is much longer-- so the book has gained a bit of weight. It will be done with a good solid binding, and be of good quality. 20 copies will be put aside for special bindings and this deluxe volume, for collectors, will be signed and numbered.

Prices will be as low as I can go and still make the money work out, and will be announced when we have all of the costs in hand. To be notified when it is ready, let me know and will put you on the list for one.

George Washington-----OK, here we have a collection that came my way and in it, a lot of George. Most of these are minors, or a little unusual, with a better piece here and there. First, a New Jersey quarter dollar, a 77mm WM production, of course it has Washington on the obverse, and Washington crossing the Delaware river on the reverse. Good replica, \$12. A prooflike bronze 64mm medal, with portrait of Washington and many other president, neat piece, \$15. Bronze 74mm, his bust, //his headquarters building at Valley Forge, \$12. Washington medal, 1932, by Laura Gardin Fraser, US Mint, Baker 900C, GVF or better, \$45.

AND---32+ medals, most round, 28-40mm-- all with Washington on them, two with Martha Washington, one Silver proof, with Walter Reed the primary subject, Washington on the reverse, neat lot, entire group \$140.

Railroads---French railway service, Paris to Lyon, 1952. I have sold a good number of French railway medals, this with a pictorial of a electric railway engine on the obverse. Statement of rarity on a enclosed info slip, which is quite wrong, but it is a great medal. AE, 45mm, As new \$45.

Century of Progress---Chicago, 1933. --the official medal, variety, naked man pointing to research and Industry. The reverse with a view of the fairgrounds. Seen to sell for \$90 or so, this nice EF \$65.

2 Sterling Silver medals, each 40mm, part of a Longines set, Battle of Concord, American revolution, and bust of Thomas Jefferson, medal for the Louisiana Purchase, 1801. The pair, \$28.

US Mint restrike (circa 1940), President James Buchanan, Indian peace medal. \$65. About as made.

Statue of Liberty medal---Statue of Liberty, in high relief, **68mm**, bronze-- the obverse with the busts of Eiffel and Bartholdi, next to a striding Statue of Liberty, the reverse is the statue as seen from the back, with New York City in the background. Made by the French mint, it comes with a stand. Really nice \$45. In box of issue.

Another---same view, French mint, but larger version. **80mm**, large heavy medal in Bronze, quite imposing, and a really nicely done medal. \$65. In box of issue. Both of these medals are quite impressive and neat!!

California Bicentennial---golden bronze 63mm as new boxed medal. The California bear, reverse with a group of people representing friars, miners, businessmen, soldiers, from the past 200 years. 1969. Choice new, \$35.

Benjamin Rush---a bronze 73mm medal, his bust on obverse, and seated at a desk, writing, on the reverse. A noted pathfinder in American psychology, this medal seems to be Medallie art co, but not noted. UNC \$55.

Abe Lincoln---The Gettysburg address. 125th anniversary, Medallie Art Co, Reverse with Gen Meade and Lee, the eternal light peace memorial. 38mm Bronze, in box of issue. \$32.

Auto Club of France---Imposing 68mm bronze medal, with "Speed" riding in her car, the reverse named to Felix Brosse, awarded for the decoration of the stands, 1901. The medals were all made in 1894-95, and awarded until they ran out of them, It is interesting, for all of the medals I have had that were prior to 1905 always named someone who did not have a car, and if you think about it, it makes a lot of sense. These were interested people who could not afford such a toy. I had one from 1899 awarded for the recipient's "enthusiasm". These medals are rare as a group, and being that they are all named, unique as such. This piece is VF, has some handling and use, offered at \$195.

Treaty of Versailles, 1919. This medal Belgian, has Belgium standing, a harp of peace being played by a second figure in proclamation of their neutrality//Reverse has Belgian soldier participating in the watch on the Rhine. Bronze, 70mm, a very nice piece, great surfaces, EF \$75.

U. S. Naval History---US mint 76mm copy, made in 1954, from the original 103mm medal. This bronze piece depicts the sloop of war St. Louis and the Austrian brig of war Hussar, in Smyrna Harbor. The captain of the St Louis managed to get Martin Koszta released by Austria, and for this was awarded a presidential medal in Gold in 1853. With but 15 original medals made, these US mint copies are about all we have in the marketplace. As new, \$110.,

1797 copper Twopence, made into a box----This box is quite special. First, it is a screw-on box, not a force fit type, and second, it is made from a pair of twopences that are at least AU in grade. The workmanship is fantastic. This box has been in several collections in the Northwest, and only due to illness has it returned to me a few times now. I have had it in my collection on and off, it is time for it to find a new home. If you like these boxes made from twopences, and this is the Best one EVER!! You will love it, \$435.

Admiral Vernon Medals.

Cartagena---this a very rare Vernon medal, with the legend “**I came, I saw, I conquered**” the bust of Vernon standing bearing a baton---the reverse with ships in the port, and the legend “**none more ready, non more brave, April 1741**”. First one of these I have seen. Considering the rarity, it is a shame that there are some heavy scratches on the obverse, next to the bust on either side. Reverse, just wear, obverse worn the same, the net on the piece is Fine to VF, with the scratches mentioned. As it is, \$225.

Portobello, the standard bust of Vernon//Ships in port. Evidence of silvering, piece is a F-VF, tad rough, \$135.

Portobello, Vernon and Brown, //Ships &c. This piece VG, but all readable. \$85. Both Portobellos 1739.

Lester as Galloping Dick—novel torture scene by Indians—torture by Vitriol” The reverse, “Indians, Cowboys---see the splendid Cowboy Band” A very unusual 18mm brass token, strong, so GVF for issue, most likely around 1900, give or take a few years, \$45.

United States Consulate and agency of Claims---the legend on a museum electrotype piece, done in the early 19th Century, with a spread American eagle of the style used before 1810. This is the lower half of the US Embassy consulate seal from Paris. It was used to emboss a “wafer” on a document. Some years ago, the late Dr. Doty worked this out for me, and the piece is considered one of a kind, and it is not known where the actual seal may have gone. An opportunity to own an interesting piece of Americana, with ties to the beginning of our country. As made, excellent condition, \$250.

Karl Goetz---**K515**, Silver 36mm medal. Death of Prof. Hugo Junkers//**view of a Junkers 4 motor plane** over an eagle. Matte finish, AU and very rare. Dated 1935. Many of the planes used by Hitler before and during WWII were Junkers, the Allies were all too familiar with them. Wonderful medal, \$525.

Zeppelin Flight, Freidrichshaven to Berlin. 1909. AE 36mm Goetz K-47. Bust Von Zeppelin//boy writing on tablet below a zeppelin in the sky. This medal nearly 100% red, the bust toned some, the rest a very beautiful lustrous red. This piece is very choice UNC, and the finest I have seen, as made---. \$325.

Prussia---**Fredrich The Great**//**7 Years War**. Victories at Rosbach, Nov 5, Lissa, Dec 5. 1757. This medal, a large format 48mm, with Fredrich on his horse//The battle scene at Rosbach.
