#### THE COPPER CORNER LIST #86

November 2016 -January 2017 "Something for Everyone"

18<sup>th</sup> Century "CONDER" TOKENS------17<sup>TH</sup> Century tokens—19<sup>th</sup> Century tokens

Medals, medalets, unusual historical items----

Hello to all---this was one really busy and productive year for the Copper Corner. The new edition of Dalton and Hamer has been out since last January, and has sold well. I have it in stock, (135 postpaid), in the UK Alan Judd is handling it, 88 pounds postpaid, ask him at <a href="mailto:micobwright@aol.com">micobwright@aol.com</a>. The deluxe edition is down to one book!! It is here if you wish it at \$250 postpaid in the USA. To the UK it is a horrible \$325, the shipping alone \$85.

The Baldwin Basement III sale was for me the best one yet. Anyone looking for a rare single piece might find it here, but probably the first two sales were better for that. This sale had group lots, and if you did your homework, looked at them with an eye for quality, there were pieces there that almost NEVER show up in the high grades that were in the lot. I bought 20 of the groups, and am very happy with them, and in the long run you shall be happy as well!! Coming out of the basement, even the group lots were somewhat special, with tags for Cokayne and other collectors, a bit of insight into what they had found, and that they considered the piece worth collecting. There was one lot that contained pieces that are never, ever, seen in high grade, and each piece (though some were badly struck) were easy to see that they were as made. Fantastic, for the collector of them. More than one piece in this sale was far better than usually seen. Thus, over the next year have some interesting things to bring out. After arriving home, a collector on the east coast who bought some really nice pieces and very rare pieces from me, some sold from the collection I had back then, when I needed the money to buy good items. I never did buy others, since I could not find them in such wonderful condition, and here was the entire lot for sale back to me!! Thus I re-purchased some exceptional tokens, very excited about that. Added to Baldwin III, and some wonderful pieces bought privately at shows and in offices, will have wonderful items to sell in the next year. Thanks for looking, have slipped some new material in here. Best always, Bill

"BB III" denotes a piece from the Baldwin Basement sale.

The LANCASTER ND letter at the top of the pyramid is a "K", which has led to calling this token the Kentucky cent, as it was meant to be the "fifteenth star", since Kentucky was the 15<sup>th</sup> state in the Union of the United States. It also dates the piece, as it gained statehood in 1795. This piece was in a PCGS Slab, marked MS63. Ton of original luster, on a brown flan, it is a planchet cutter error, with tiny voids at the rim at 7 and 12, with a thin curved line connecting them. Fully UNC, all high points completely there, no rub. PCGS called this an incomplete flan, when it is actually complete just a planchet cutter gone a bit wild. ANDERSON'S 248 1795 Anderson's monogram//Arms of London. I have a weakness for this piece, as I consider the design to be superior, it is simple and effective, the designer of it was a pro.        the problem since the pieces looked alike, and were dated the same. Thus, he withdrew the first order,

**Samuel, R. T. --British Tokens—the Bazaar, Exchange, and Mart.** From the pages of the Bazaar magazine, 1880-1889. Found and copied by Harold Welch, this book contains information not printed anywhere else, and was the basis for all of the Bell books. A very hard to locate book, 90 hardbound editions, these are all numbered, this one is signed and numbered, this is #63. Seldom offered, \$350.

Lusk, Jon —a new book which expands Bell's Commercial Coins and has superb plates and information, is available now. "British and Irish Tradesmen's copper Tokens 1787-1804" superb new information. Apply to Jon@Lusk.cc or in the UK, to Spink, London.

Davis, W.J.---19<sup>th</sup> Century Token Coinage---this a reprint of Davis's 1904 work, with some 19<sup>th</sup> C tokens not reported elsewhere. Superseded by Withers in 1999, but still useful. **Williamson, (After Boyne), the expanded book from Boyne,** originally printed in two volumes, 1889-1891, and reprinted in three volumes and expanded, Seaby's 1967. The three ex public library, and in excellent condition. This is still being used as the standard reference for 17<sup>th</sup> C tokens by a great many people, though the 9 Volume set of the Norweb collection certainly has better plates. This is a close out for me, will sell it for \$150, and if you collect these pieces, or are thinking of it, you will need it.

**Thomas Fisher, a twopence from around 1735**, Ireland, Bird with worm in it's beak//Redeemable &c. These often have strikes that allow the worm to be missing, this has the worm-- a nice VF for issue \$265.

**Warwickshire**, **Wilkinson D&H 336.** Bust Wilkinson//A barge. These usually come worn and seldom are found in high grade. This one is EF to AU, one Dick was proud of. Yours for \$200.

**Bermuda Cent.** Bust of George III//Ship, 1793. Nice color, no damage, I call it GVF but it looks better, these in UNC are into four figures, buy this one for \$350.

**British Bank Token**, a 3pence piece, apparently brass, some mint red however. Dated 1814, bust of George III on obverse, value on reverse Close to as made selling for a GEF, and reasonably at \$200.

**Boulton Death Medal,** ---this is the 41mm copper piece that was given out to people who attended Boulton's funeral, (Obsequies). There were 550 struck at Soho, and given out. This one, however, follows something I discovered a year ago, that there was a restrike. The letter Q in Obsequies in the original looks like the capital letter Q printed here. The restrike has the tail of the Q going up into the O above it. Oddly, I had never noticed this before, but have Watt Jr.'s copy, and this is the first one I have obtained that has that "new Q", and is thus a Watt Restrike done at Soho. It is a R&B UNC with no marks at all, like new----and though a restrike was done only around 10 years later. I know of two of these pieces now.. \$250.

**Boulton and Watt, portrait medal** put out by James Watt and Co, circa 1880. AE, 38mm. The busts together on the obverse with no legend, the reverse with Watt and Co. information. Two available, the first is a nice EF \$65, and the last is a super UNC, bronzed, full luster, unmarked in any way, \$125.

**Sentimental Magazine, Lord Camden,** 1773.19mm. AE. This is William Pitt Sr, who pleaded with success in parliament to stop the original stamp act, and stop an American rebellion. Grade VF, yours at \$45.

George III, Charlotte, Marriage medal 1761. This 25mm AE medal is WAY better than usually seen. It has some rub in George's hair and on his cheek, but is otherwise as made. Sharp, nice EF+ to UNC \$65.

George III, Charlotte, Coronation medal, 1761, 26mm AE and again better than usually seen, this one with the busts facing left on the obverse, Coronation &c on the reverse, it is GVF-EF, and yours for \$45.

**George III---50 year Jubilee**, a 24mm AE token, Crown, Scepters on the obverse, The reverse with a description of the Grand National Jubilee, in 1809 for his 50<sup>th</sup> year. UNC, tough grade, \$45.

**George III, the Death of.** A 19mm AE medalet, once gilt but now worn off, Bust to left//Reverse with information on his birth and death, in 1820. VF, very decent. \$25.

**Six 19**<sup>th</sup> Century tokens, copper, B&B Copper, Roscoe place mill pictorial, Pheonix Iron Works pictorial, Crown copper Co, with crown, Samuel Fereday copper, and Comerce Standing on a Doncaster token. All are identified, and have Dick's handwritten ticket listing them by Davis number. Two VF, three GVF, one EF, the group yours for \$80. This ends the list, and is the last entry for the last of Dick Doty's token collection. All are worth owning, the price not escalated, good material. Thanks for looking, Bill

The English grading system is used on all tokens, but the grading abbreviations are USA. A plus or a minus next to a grade indicates that the piece is in the grade indicated, but look, surfaces, or marks may be a bit better or worse than the grade given. Scr= scratch. Hfs, =holed for suspension. Rm=rim nick.

UNC—no wear. AU—Tad rub. EF— light circulation. VF-Very fine. F-Fine. VG Very good. G-Good.
